

Dotty Dinosaurs

Contents:

4 dinosaur boards, 24 shapes, 24 colour dots, 1 shape dice, 1 colour dice, 1 dice shaker

SHAPES GAME

Object

To be the first player to fill their board with the matching shapes.

To play

- Each player chooses a dinosaur board and places it in front of them with the shapes side uppermost.
- The shape pieces (with blue backing) are spread out face upwards on the table. The colour dot pieces (with white backing) and colour dice are not used.
- The youngest player begins by rolling the shape dice and looking for a shape piece that is both the same colour as their dinosaur and matches the one shown on the dice. They then place the shape over the matching space on their dinosaur and play passes to the next player.
- If a player rolls a shape that they have already collected, play passes to the next player.
- Play continues until one player has covered all the spaces on their board.

The winner

The winner is the first player to cover all the spaces on their board with the matching shape pieces.

COLOUR GAME

Object

To be the first player to fill their playing board with the correct matching colour dots.

To play

- Each player chooses a dinosaur board and places it in front of them with the colour dots side uppermost.
- The colour dot pieces (with white backing) are spread out face upwards on the table. The shape pieces (with blue backing) and shape dice are not used.
- The youngest player begins by rolling the colour dice and looking for a dot piece that matches the colour shown on the dice. They then place the dot piece over the matching space on their dinosaur and play passes to the next player.
- If a player rolls a colour that they have already collected, play passes to the next player.
- Play continues until one player has covered all the spaces on their board.

The winner

The winner is the first player to cover all the spaces on their board with the matching colour dot pieces.
