

New Baby Lotto

Contents:

4 new baby picture boards, 24 item cards, 4 baby cards

Setting up

- Press game components out of the frames and discard the frames.
- Each player chooses a new baby picture board.
- The item cards are spread out, face down, on the table.
- The baby cards are spread in a separate group, face down, on the table.

Object

To collect all of the matching item cards and the baby card shown on your new baby picture board.

To play

- The youngest player begins by turning over an item card.
- If the card is shown on the player's board, they place it on the matching square on their board.
If the item is not shown on the player's board, it must be shown to the other players and then returned to the table, face down.
- Play passes to the person on the player's left.
- Once a player has collected all of the items on their new baby picture board, they then need to find their baby. On their next turn, the player chooses a baby card. If the baby matches the one on their new baby picture board, the player places the card on their board and they win the game.
If the baby does not match the baby on their board, then the card must be shown to the other players and returned to the table, face down.
- Play continues until one player has found each of the matching item cards and the baby on their new baby picture board.

The winner

The winner is the first player to collect all of the matching item cards and the baby on their new baby picture board.
