

Snowman Christmas Card

Make a glittery, frosty snowman card this winter!

Using simple circles of card, a stamper and lots of glitter, this snowman card makes a lovely festive greeting.

You will need:

- Blue card • White card • Glue • Blue paint • Black paint • Scissors
- Glitter • Brown felt tipped pen • Stamper • Orange paper or card

Fold over the blue card and use a stamper and blue paint to make a textured background. We've used a checked effect stamper but you could use any design you like.

Cut the white card into three circles by drawing around circular objects (the top circle should be smaller than the bottom two to make the snowman's head). Glue them to the blue card.

Use your finger to dip in the black paint and print eyes and buttons.

Draw your snowman's arms using a brown felt tipped pen.

Add a triangle of orange card to make the nose, then paint with PVA glue and add some glitter to make him sparkly!
