

# Sock Snowman

This cosy little snowman will be great to make this winter!

Quick and easy to put together, we've added a ribbon to our frosty friend to make his scarf, but you could use a strip of fleecy material and accessorize him with bells, bows or real buttons!

## You will need:

- Grown up's white sock
- Rice
- String
- Scissors
- Ribbon
- Googly eyes
- Black card
- Orange card
- Glue
- Child's mitten

1 Cut the sock above the heel and fill with rice - you might need someone to hold the sock open and another person to fill it with the rice.

2 Tie the end of the sock with string. Make sure the sock is a little baggy around the rice and not too full.

3 Tie the ribbon further up the sock to make the snowman's scarf.

4 Glue on the snowman's googly eyes and cut and stick on a triangle from the orange card to make a carrot nose.

5 Cut circles from the black card to make buttons and glue them on.

6 Take the child's mitten and tuck the thumb inside out. Put it on your snowman's head to make a cute woolly hat!

7 Your snowman is finished!
