Contents

- 1 jiggered pond board • 1 hill board • 1 Mother duck board • 24 lily pad cards
- 4 two-piece coloured collection boards

Setting up

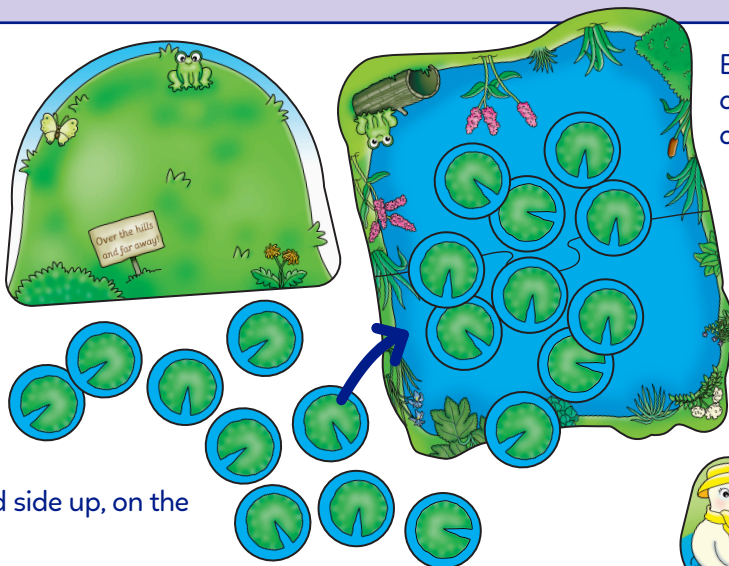

Assemble the jiggered pond board.

Place the hill board on the table, next to the pond board.

Place the Mother duck board within reach of all players.

Place the lily pad cards, lily pad side up, on the pond board.

Each player chooses a coloured collection board.

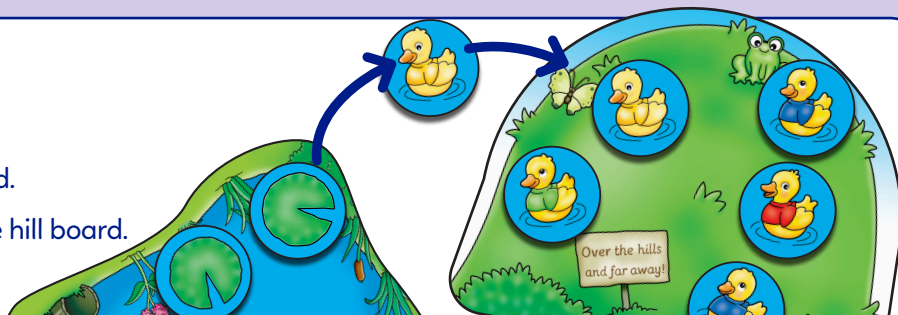

1 Pick a lily pad

The youngest player starts.

Turn over a lily pad card from the pond board.

If it is a duckling of **any colour**, place it on the hill board.

Play passes to the next player.

2 Mother duck

If it is a mother duck, the player can call the ducklings **on the hill** back home by saying "Quack, quack, quack, quack!"

Each player collects their **own coloured ducklings**, placing them on their collection board.

Place the Mother duck card on the Mother duck board.

Play passes to the next player.

Play continues until one player has collected all their coloured ducklings.

NB. When the **fourth** Mother duck is found, call the ducklings back and then return the Mother duck card, face down to the pond.

3 The winner

The winner is the first player to collect and count all five of their coloured ducklings.

All players can sing "Five little ducks went out one day, over the hills and far away."

Sing Five Little Ducks

"Five little ducks went out one day, over the hills and far away. Mother duck said, Quack, quack, quack, quack, but only four little ducks came back."

Continue until: "No little ducks came back..."

"A sad mother duck went out one day over the hill and far away, Mother duck said, "Quack, quack, quack, quack"

and all of the five little ducks came waddling back."
