

# Not on my Plate!

## Contents:

32 cards

## Setting up

- Shuffle the cards and spread them face down on the table.

## Object

To collect three complete meal plates with the same colour background, while avoiding the 'yucky' food plates.

## To play

- The youngest player begins by choosing a card and turning it over.
- **If you turn over a card with a coloured background** this becomes the colour you are going to collect. Keep the card and place it in front of you. If another player has already begun collecting this colour, return the card face down to the table. Play then passes on.
- **If you turn over a yucky food card** (with a white and grey stripy background), keep it in front of you until your next turn, when you must return it face down to the table before turning over a new card. When you return the card, you must shout "Not on my Plate!"
- Play continues in this way until one player has collected a full set of three complete meal plates with the same colour background.

## The winner

The winner is the first player to collect three complete meal plates with the same colour background.

## Note

Why not use the cards to make up different kinds of meals? Which ones are your favourite and least favourite combinations?
