

Can you spot...the blend?

We've picked some words for you to try and sound out.
Can you spot the phonemes and digraphs?

You will need:

- Your thinking cap!
- Felt tipped pens or pencils

Tip: A sound made from **one letter** is called a **Phoneme**. A sound made from **two letters** is called a **Digraph**.

Use a pen or pencil to draw a **dot** beneath the **phonemes** and a **line** beneath the **digraphs**.
Why not ask your teacher at school or parent to check them with you afterwards?

1

fork

Don't forget to sound out the words first!

2

jelly

3

raccoon
