

Dirty Dinos

Spin the spinner and fill your bath tub with dirty dinosaurs in this fun colour and counting game. The player with the most bubbles wins!

Contents

- 4 bath playing boards • 25 dinosaur cards • 1 double spinner board
- 2 two-part spinners (separate plastic arrows from the bases and attach to spinner board)

Setting up the game

Each player takes a bath board.

Assemble the double spinner and put it where everyone can reach it.

Spread all the dinosaur cards dirty side up on the table.

1 To play

The youngest player starts by spinning **both** spinners.

2 Find the matching dinosaur

Pick up the dinosaur on the table which matches both the **colour** and the **type** shown on the spinners, e.g. If the spinner shows blue and a T-Rex, you are looking for a blue T-Rex. Turn your dinosaur over (to give it a wash!) and put it on your bath board, bubble side up. Play passes to the next player.

3 If the dinosaur you need is on someone else's board

If the dinosaur you are looking for is in someone else's bath, it jumps out of their bath and into yours!

N.B: younger players can play a game where they don't lose a dinosaur and play simply moves on if this happens.

4 When your bath is full

When your bath is full, you can no longer spin the spinners on your turn, but your dinosaurs might still jump out of your bath and into someone else's! If this happens, spin the spinners again on your next turn to add more dinosaurs to your bath.

The game continues until **all players** have a bath full of dinosaurs.

5 The winner

When **everyone** has a bath full of dinosaurs, count up the bubbles. The winner is the player with the most.

For a longer game

Play as above but each player can only collect one of each dinosaur type or one of each dinosaur colour.

Fill Your Bath First

Set up the game as above.

The youngest player begins by spinning both spinners.

All the players look to see if they can see the dinosaur on the table which matches both the **colour** and the **type** of dinosaur shown on the spinners.

The first player to spot the matching dinosaur quickly puts their hand on top of the card. They then turn it over and put the dinosaur, bubble side up, on their bath board. Play passes to the player next to the one who last spun. (If the matching dinosaur is already on someone else's board, nobody picks up a card and play passes on).

The winner is the first player to fill their bath with dinosaurs.

Dino Hunt!

Why not hide the dinosaur cards around the room and play this game as a dinosaur hunt?
