

Jungle Dominoes

Contents:

28 dominoes

Setting up

- Shuffle the dominoes and deal seven to each player.
- Place any remaining dominoes, face down, in a pile.

To play

- The youngest player places one of their dominoes face up in the middle of the table.
- Players then take turns to match one of their dominoes to either end of the domino chain by placing the two matching ends together.
- If a player cannot make a match, they take a card from the main pile. Play passes to the next player.
- If there are no dominoes in the main pile, play passes to the next player.
- The game continues until nobody can match their dominoes, or someone uses up all their dominoes and wins the game.

The winner

The winner is the first person to play all their dominoes or, if nobody can finish, the player with the fewest dominoes at the end of the game.
