

Number Bears Addition Snap Cards

Show off your number and counting skills with these snap cards. Can you complete the addition calculations by matching the numbers being added to their answer?

You will need:

- Number Bears Addition Cards (included in this resource)
- Number Bears Answer Cards (included in this resource)
- A4 thin card or paper
- scissors

Instructions

1. Print out the Number Bears Cards onto A4 thin card or paper.
2. Carefully, cut out the cards. You might like to ask an adult to help you with this.
3. If you can, laminate the cards or cover them in sticky-back plastic so they can be used again and again.

Ways to Play

Snap Game

- You will need two players.
- Mix up all the cards and deal them out equally.
- Keep your pile face down.
- Take it in turns to turn over the card on the top of your pile and place it in front of you.
- If you see a match (an addition card that is equal to an answer card), say, 'Snap!' and claim the pair. Put it to one side.
- Keep going until you have matched all the cards.
- The person with the most pairs wins the game.

Memory Game

- You can play this game with someone else or on your own.
- Spread out all the Number Bears Addition Cards face down in one group and then all the Number Bears Answer Cards face down in a separate group.
- Take it in turns to turn over one addition card and one answer card.
- If the addition is equal to the answer, you can keep the pair. If it isn't, turn them back over (but try to remember where they are!)
- The game is finished once you've matched all the pairs. Who got the most?

Challenge: Mix up all the cards and spread them out. Can you match the addition calculations to the answers?

Write Your Own

- Grab a mini whiteboard and a dry wipe pen.
- Place the cards in a pile.
- Pick up a card.
- If it is an addition card, write what it is equal to on your whiteboard.
- If it is an answer card, write down two numbers that could be added together to make this total. Can you come up with a few possibilities?

Some ingredients and/or materials used might cause allergic reactions or health problems. You should ensure that you are fully aware of the allergies and health conditions of those taking part. If you have any concerns about your own or somebody else's health or wellbeing, always speak to a qualified health professional. Activities listed within the resource should always be supervised by an appropriate adult. Children should be supervised when using sharp items such as scissors or other tools. Please make sure you are aware that children may put craft items into their mouths, and that they should wash their hands afterwards. By using this resource, you acknowledge that it is the responsibility of supervising adults to ensure the safety of children in their care and that we will accept no liability as a result of the activity.
