The World of Peter Rabbit™ and Orchard Toys collection represents the very best of both brands, and our shared values of quality, education, family and fun!

Fish and Count

See how many fish you can catch in this fun **number and counting game**, but watch out for the stickleback who will eat all of your fish!

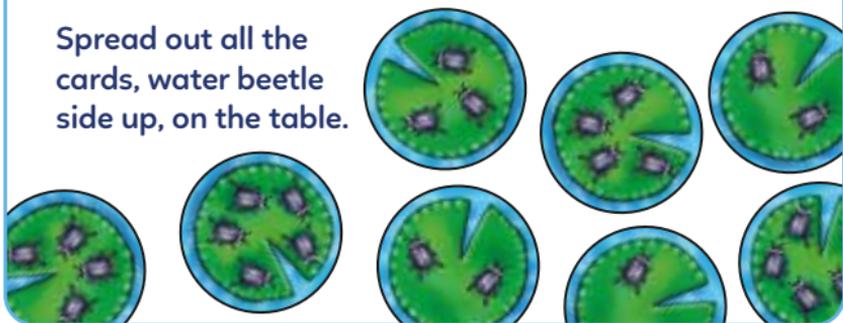

Setting up

Each player chooses a character board and places it in front of them.

Assemble the spinner and place it within reach of all players.

Spread out all the cards, water beetle side up, on the table.

1 To play

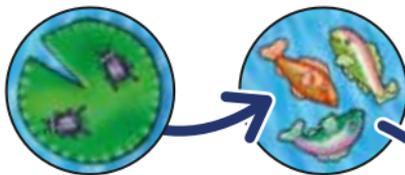

The youngest player starts.

Spin the spinner.

2 Count the water beetles

Look for a card showing the same number of water beetles as the number spun on the spinner.

Turn the card over and count the fish. Place the card on your character board.

Play passes to the next player.

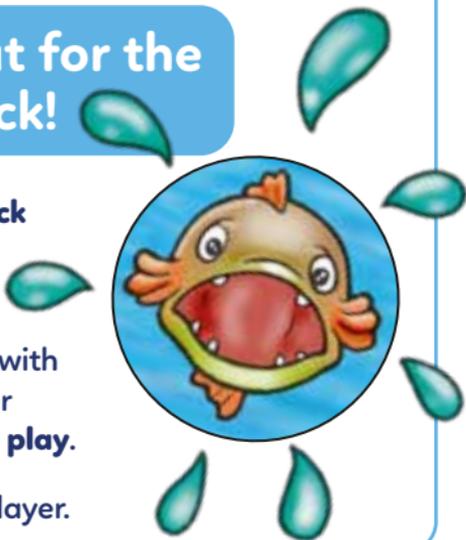

3

Watch out for the stickleback!

If you pick up a **stickleback card**, the stickleback will **eat all of your fish!**

The stickleback, together with any fish on your character board, are **removed from play.**

Play passes to the next player.

Towards the end of the game, if you cannot find a card showing the same amount of water beetles as the number spun on the spinner, play passes to the next player.

4

Count your fish

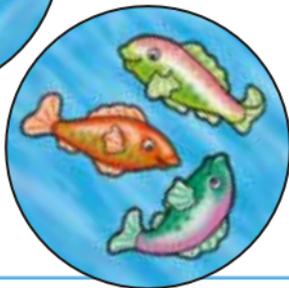

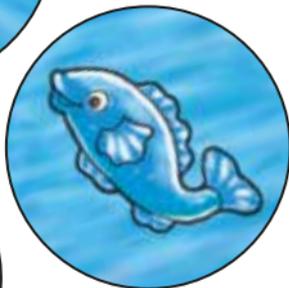

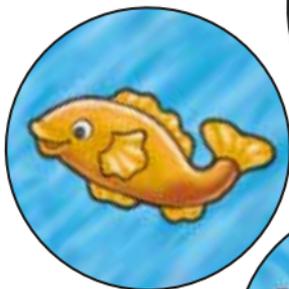

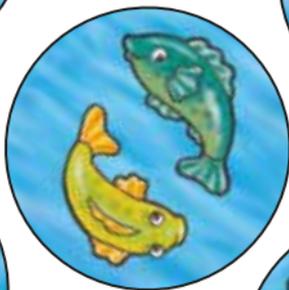

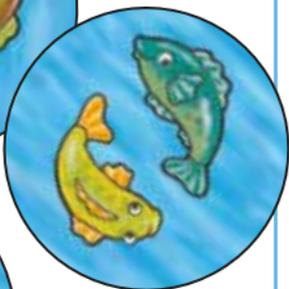

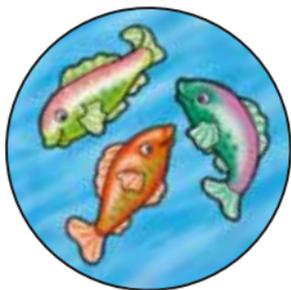

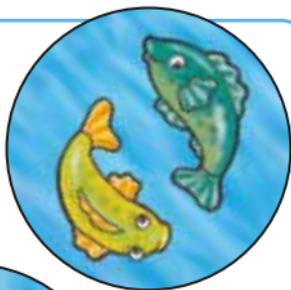

When there are **no more cards left on the table** to match to, all players count how many fish they have caught.

5

The winner

The winner is the player with the most fish at the end of the game!
